Subject: Quick review of language regarding 1-year extension in Sheboygan split notice

Doug, Kathleen, Jenny –

We've learned that, earlier today, Acting Administrator Wheeler signed the notice proposing a 1-year extension for Sheboygan. I'd like to add that context to my Sheboygan split notice. Can you take a look at the below paragraph (new language in **bold**) and let me know if you have any suggestions or edits? I never feel comfortable adding stuff late in the process without getting external eyeballs on it.

I predict my notice will be signed before the bump-up notice is published, so I'm referring to a signature date. But I'll change to an FR citation if the timeline allows it.

Eric

On March 27, 2008, EPA further revised the 8-hour ozone NAAQS by lowering the level of the primary and secondary standards from 0.08 ppm to 0.075 ppm, often expressed as 75 parts per billion (ppb) (40 CFR 50.15). On May 21, 2012, EPA designated the entirety of Sheboygan County in Wisconsin as nonattainment for the 2008 ozone NAAQS, based on air quality data from 2008-2010 showing a design value of 78 ppb at the Sheboygan Kohler Andrae monitor (77 FR 30088). EPA's designation was a modification of Wisconsin's recommendation to designate the entire state as attainment, based on 2006-2008 data, despite these data showing a violation of the 2008 ozone NAAQS at this monitor. At the time of its designation, the Sheboygan County, WI nonattainment area for the 2008 ozone NAAQS was classified as Marginal with an attainment date of July 20, 2015. On May 4, 2016, EPA determined that the area qualified for a one-year attainment date extension to July 20, 2016 (81 FR 26697). On December 19, 2016, using information from the Sheboygan Kohler Andrae monitor, EPA determined that the area had failed to attain the standard by its extended attainment date, and EPA reclassified the Sheboygan County, WI nonattainment area for the 2008 ozone NAAQS as Moderate **with an attainment date of July 20, 2018** (81 FR 91841). **On November 7, 2018, the EPA Acting Administrator signed a rule proposing that the area qualified for a one-year attainment date extension to July 20, 2019.**
